Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

As stated above, my cell phone is used strickly for emergencies only. I don't chat for hours on my cell, that's what I have a land line for. To charge people like myself an extra \$1.00 per month for cell phone usage when I may not make a single call on my cell for months at a time is blatantly unfair. People should be charge according to their usage, not simply because they own a cell phone.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
